HOW IT WORKS

How ShipBob goes from your online store to your customer's door

1. Connect

Connect your store, import your products, then send us your inventory.

2. Store

We store your inventory in any combination of our fulfillment centers.

3. Ship

As soon as a customer places an order, we ship it from the nearest fulfillment center.

How It Works

ECOMMERCE FULFILLMENT SERVICES

ShipBob is an end-to-end fulfillment provider trusted by 7,000+ DTC brands

Fulfillment network

We help you determine optimal inventory placement across our growing fulfillment network to improve delivery speeds and reduce shipping costs. You can scale efficiently by distributing inventory into additional warehouses over time.

- Affordable 2-day shipping
- Easy-to-understand pricing
- Wide range of fulfillment services
- Transparency of performance for accountability
- Hands-off fulfillment so you can focus on everything else

We ship to anywhere in the world that the carriers deliver.

Fulfillment platform

ShipBob's web-based platform acts as your back office for logistics to let you seamlessly leverage a single trusted partner for your omnifulfillment needs. ShipBob's proprietary fulfillment platform lets you manage, edit, and customize orders, track real-time stock levels from any location, and receive notifications when you need to reorder inventory — all at no extra cost for unlimited users.

Save time with reliable, transparent, and best-in-class technology and operations:

- Powerful tools and algorithms automate fulfillment and improve your bottom line
- Built-in reports and analytics to power your supply chain and give you a competitive advantage
- Trusted experts help you forecast, integrate, and orchestrate inventory and orders across channels and locales
